

# Instructions for basic customization

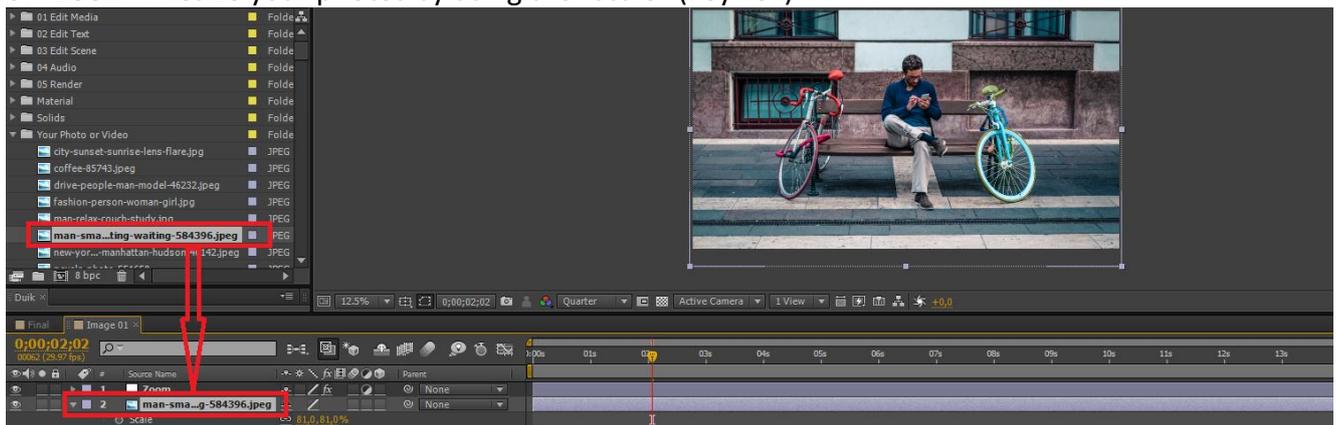

Initially, copy your files to the project panel. Put them in the folder: **"Your Photo or Video"**.

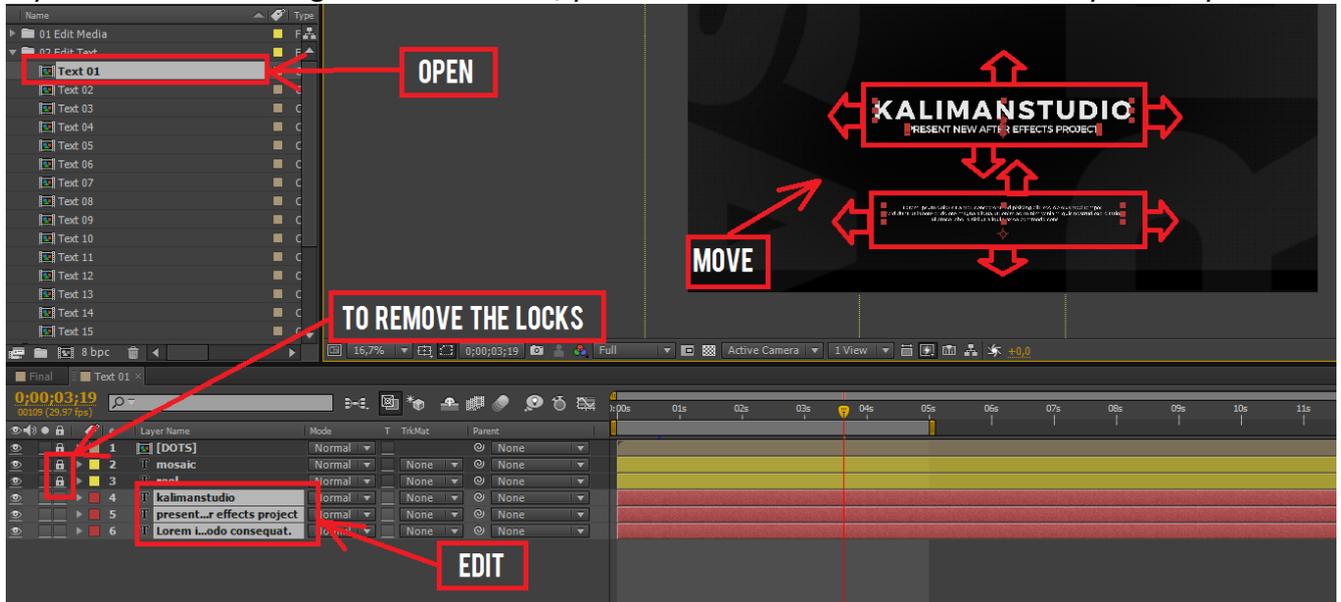

## EDIT IMAGES or VIDEO:

Find the Folder in the project panel called **"01 Edit Media"**. Select the desired composition from **(Media 01, 02, 03...)**. Double click on the composition name. Find the right photos in the folder **"Your Photo or Video"**, and move it into an open composition. Place a photo or video under a layer of **"Zoom"**. Resize your photos by using the "scale" (key **"S"**).

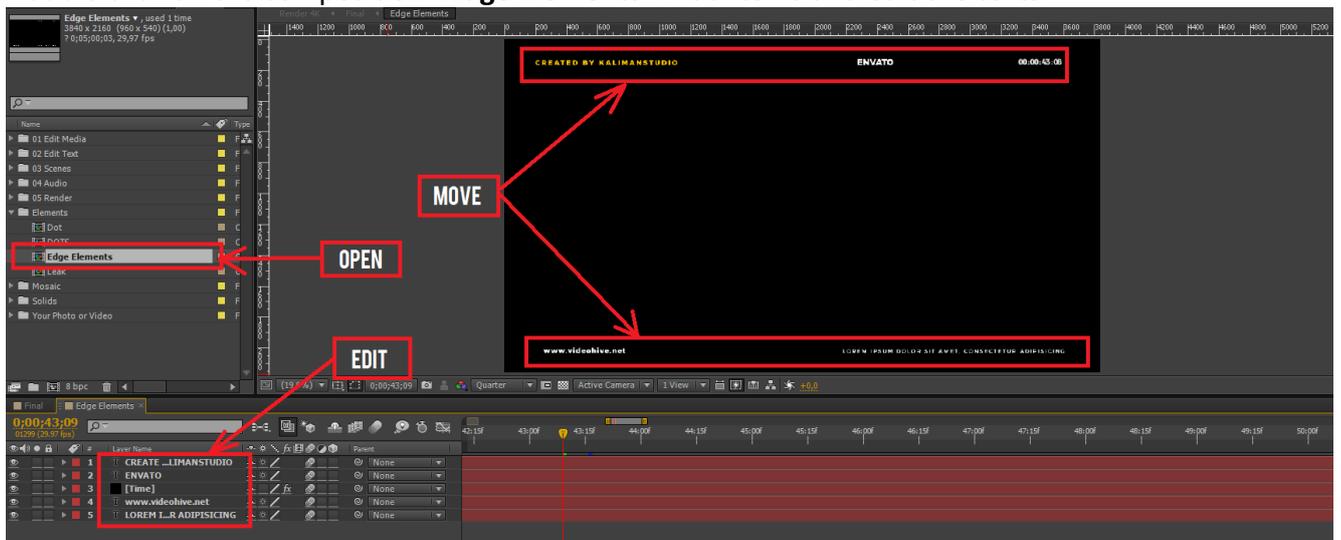

## EDIT TEXT:

Find the Folder in the project panel called "02 Edit Text". Select the desired composition from (**Text 01, 02, 03...**). Double click on the composition name. Double-click on the text layer you want and just edit it. To adjust the text, use the panel "Character". Move the text in any direction on the screen. If you want to edit a large translucent text, you need to remove the locks from the yellow layers.

## ELEMENTS:

Find the Folder in the project panel called "Elements". Double click on the composition "Edge Elements". Add items and edit the texts.

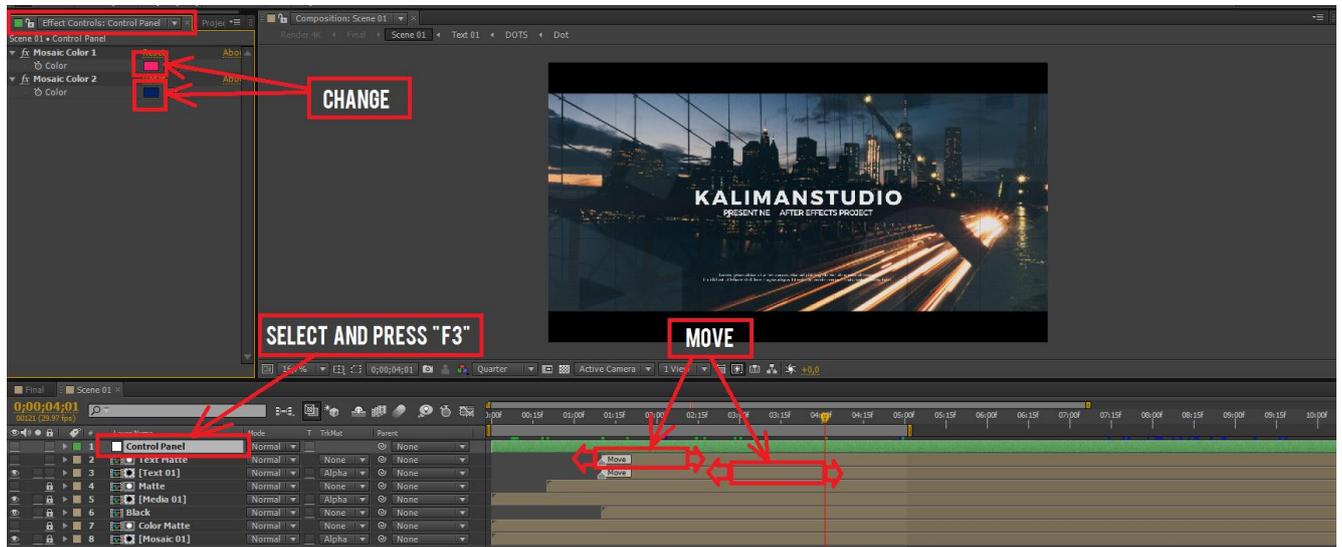

## EDIT SCENE:

Find the Folder in the project panel called **"03 Scenes"**. Open the desired scene.

To edit the color of the mosaic, select the topmost layer **"Control Panel"**. Then press **"F3"** on the keyboard.

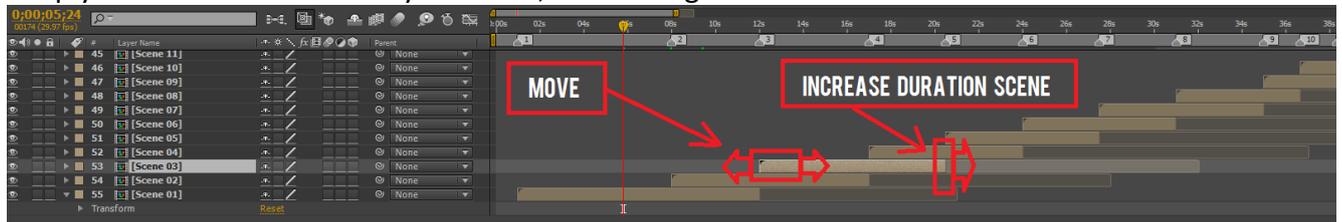

You can also slightly change the time the text appears. To do this, move the layers **"Text Matte"** and **"Text"**.

## CHANGE DURATION SCENE:

Find the Folder in the project panel called **"05 Render"**. Double click on the composition **"Final"**.

Simply move the **"Scene ..."** layers. After, do not forget to increase the duration of the scene.

## CONTROL PANEL:

Find the Folder in the project panel called **"05 Render"**. Open the composition **"Final"**. The composition of **"Final"** there is a **"Control Panel"**, which will help you customize the appearance of the project. (select the topmost layer **"Control Panel"**. Then press **"F3"** on the keyboard).

## **RENDER:**

Open the Folder in the project panel called "**05 Render**".

After, open the composition "**Render 4K**" or "**Render 2K**" or "**Render 1920x1080**".
