Instruction Steps
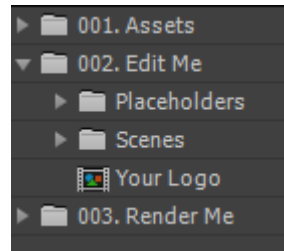

Adobe After Effects CS6 (software) or newer version required to open and edit the template file.
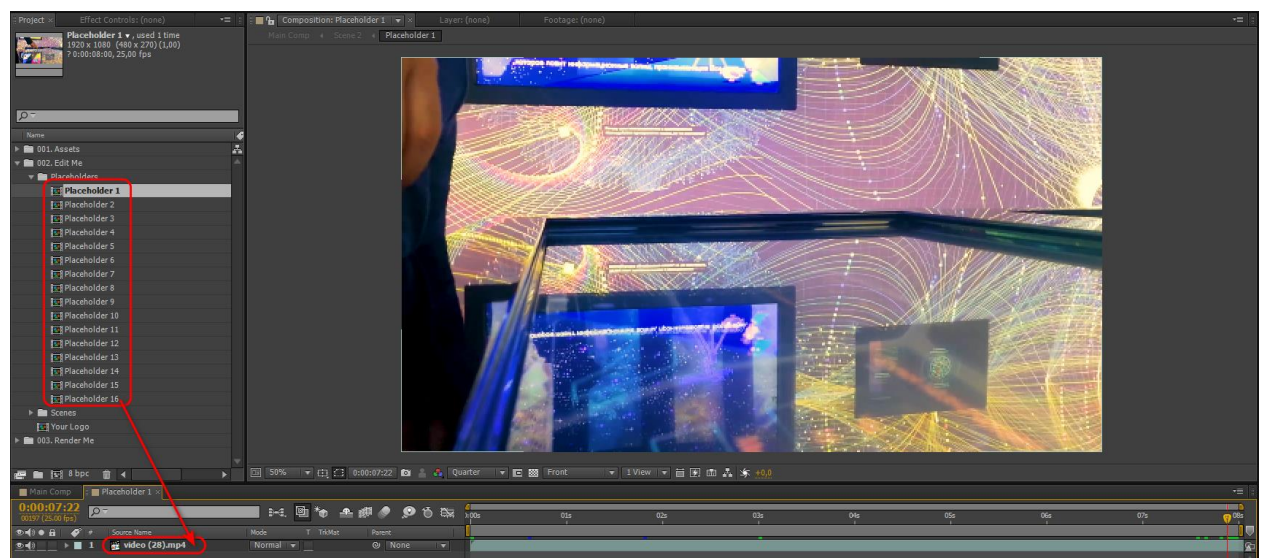

First download font and install

-----------------**Here are a few instructions that will help** -----------------

Folder "02. Edit Me"
Here you can edit text and media for your project .

Open **"Placeholder ##"** composition from "02. Edit Me " -> "Placeholders" folder . Import your media and drag into timeline.

Open **"Scene ##"** composition from "02.Edit Me" -> "Scenes". Double click text and type your text.

Modular Structure. You can change duration or delete any scene in timeline

--------------------------------------AUDIO-------------------------------------

In After Effects click on the menu option: File > Import > File (search the audio file, click on it, then click Open). Open the "Main Comp" folder. Open the composition Final Comp. Drag and drop your audio in this composition.

-----------------------------------RENDER VIDEO----------------------------------

Open **"Main Comp"** composition. click on the menu option Composition > Add to render queue

Select the desired output format and the video location. Click on Render option.
