

After Effects CC 2015 Project : Modern Titles Pack

- 32 unique animated titles
- “In” and “Out” animation for titles
- Text elements autosize with text changes
- Easy and Detailed customization
- 4K 3840 x 2160, 25 fps
- No Plug Ins required
- No music/video/photo included

Project contains 32 compositions with animated titles and 32 Text compositions with editable text layers. To edit it – choose needed **[Title]** composition and change text in it.

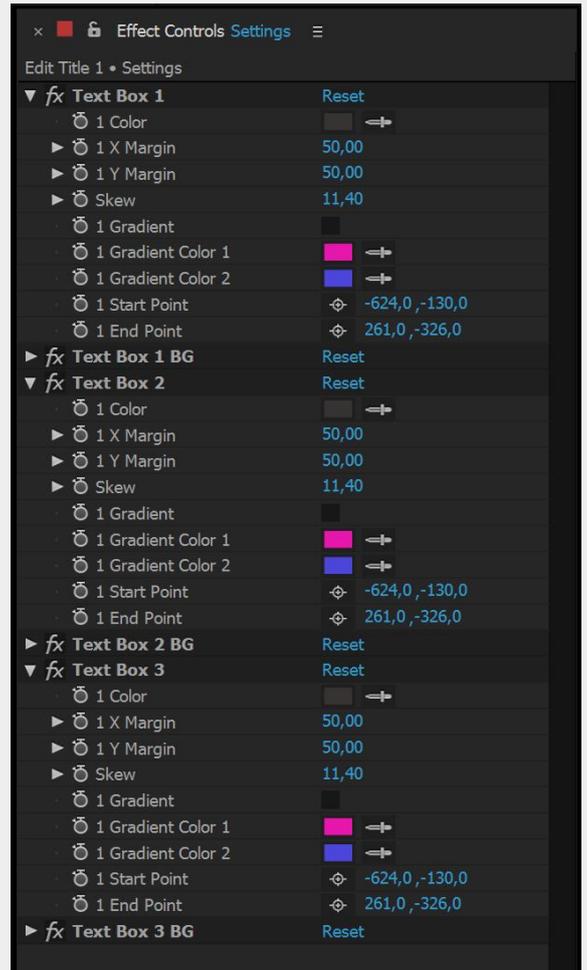

All compositions with titles have IN and OUT animation. To change duration of titles – just drag markers in [Title] composition and animation will start from In marker and Out animation will start from Out marker time.

In **[Edit Title]** compositions you can change text, move it and make adjustments.

In **Settings** Layers of **[Edit Title]** compositions you can adjust some parameters – colors, size of elements etc.

Render it with alpha channel or import you video in project and place composition with title above it.

If you want use same title animation several times in one project just select needed title folder in project window and duplicate it (ctrl+D). Rename new compositions.
