

## MOTION MEDIA GROUP

### PopArt | Stories Pack

After Effects template for creating expressive and cheerful promo for YouTube, Facebook, Instagram, Tik Tok or a TV channel. It includes 15 animated stories each 15 seconds long. Publish them on Facebook and Instagram to expand your audience.

It's made in the pop art style. It is an art movement emphasizing the usual or kitschy elements of culture, most often through the use of irony. That's why we used bright and merry design elements: stars, hearts, stickers with text, and an "OK" sign.

Yellow is the main color of this project, one of the chief colors of this year by Pantone. It's full of the promise of something sunny and friendly, bright and playful, optimistic and uplifting, lightning people's spirits. Yellow is the best color to create enthusiasm for life.

## How to edit a project.

- 1) To edit a project, open the Edit folder. In it, you will see compositions with text and images that you can change. All of them are marked on the timeline, so you can edit the project sequentially and not get confused

- 2) for example, open the song Stories\_4. Text editing layers are highlighted in green. Double click and you will be able to enter your text. In addition, you can see the composition for your placeholder on the timeline or in the Stories\_4 folder. Open it to insert your photos or videos.

Other compositions in the project are edited using the same principle.
