

# Linear Progress Bar

After Effects Template

## Install Below Fonts

1. Objective - <https://befonts.com/objective-font-family.html>
2. Bebas Neue - <https://www.fontfabric.com/fonts/bebas-neue/>
3. Roboto - <https://fonts.google.com/specimen/Roboto/glyphs>

## About this template

- This template works with **after effects 2019 CC**
- **Orange:** Control Panel (All the controls of this template)
- **Green Layers:** Editable text layers
- **Blue Layers:** Editable Composition & Expression driven layers (eg: Media Placeholder, Text Placeholder)
- **Red Layers:** Un editable layers (Do not touch)

## Customizing Linear Progress Bar (Common)

1. Open any linear progress bar final comp.
2. Click on title text layer and edit titles.
3. Then click on **controls panel** and press **F3** to customize the progress bar.
4. Open primary controls and customize **percentage, duration, total & final count and animation type**.
5. You can customize Title color, position, etc...
6. Repeater the same steps to customize rest of the progress bar.

## Rendering

- we recommended .MOV and format option H264. You get good quality and relatively small size.
