- Awesome atmosphere
- multi-purpose
- color control
- After Effects CS5.5 and above
- no plugins required
- 100% After Effects
- Full HD
- Help file included
- music and photos not included

1) On the timeline marked the camera position, each position has its own folder for editing

2) To edit the text or image, scroll through the timeline and open the folder that corresponds to the name of the marker. Open it, it contains compositions for editing of text and images.

The rest of the draft is edited on the same principle.
