

Hello my dear friend!
Thanks for buying my template.
Please Read This Help File

1.Import your Files

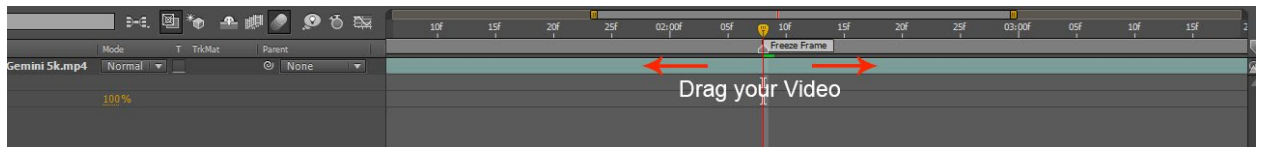

2. Open Composition “Placeholder 01-11”

3. Drag your Video to Composition “Placeholder 01-11 ”

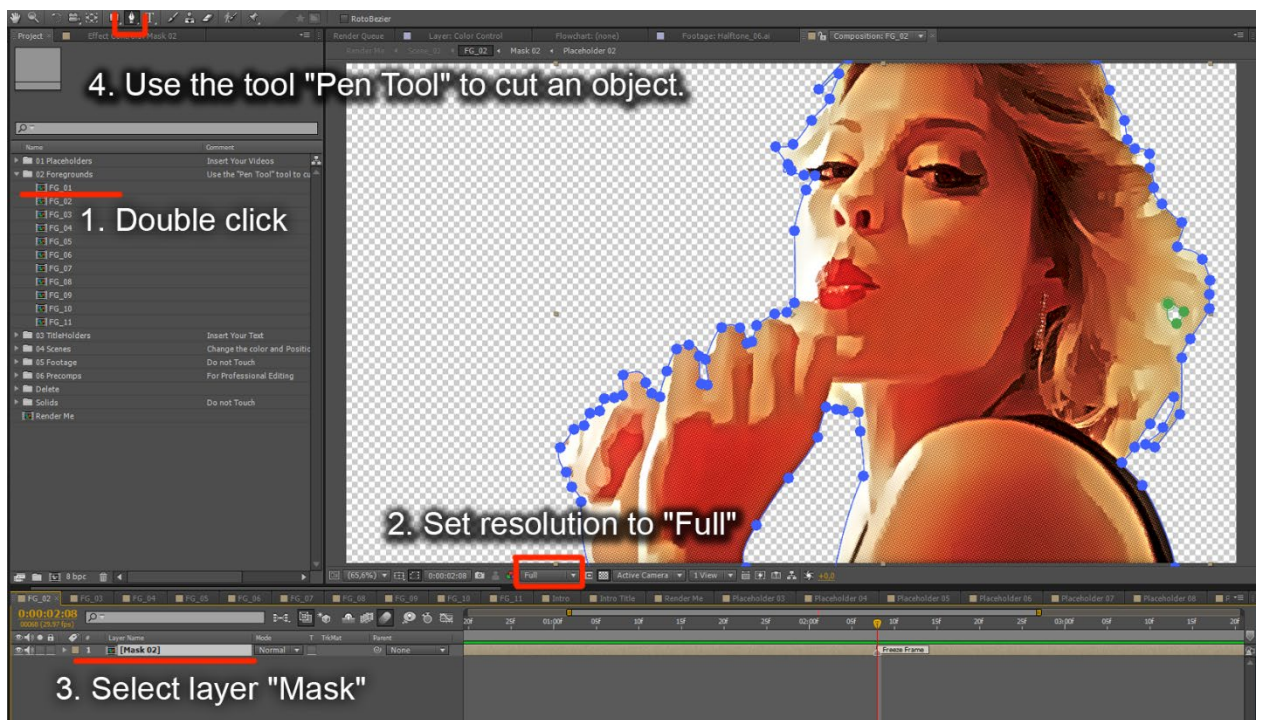

4. Move the Video so that the moment you want to freeze matches the marker.

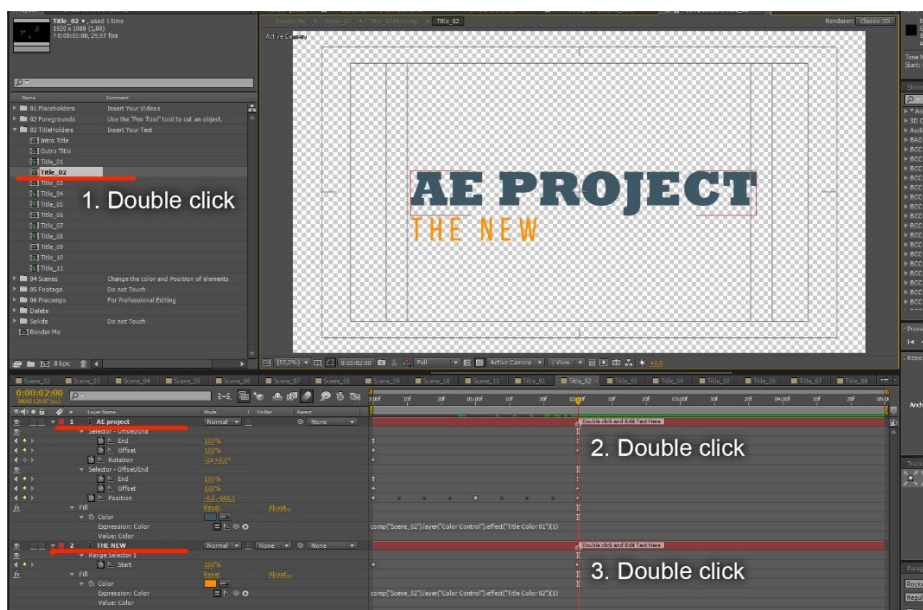

5. Open Composition FG_01 - FG_11

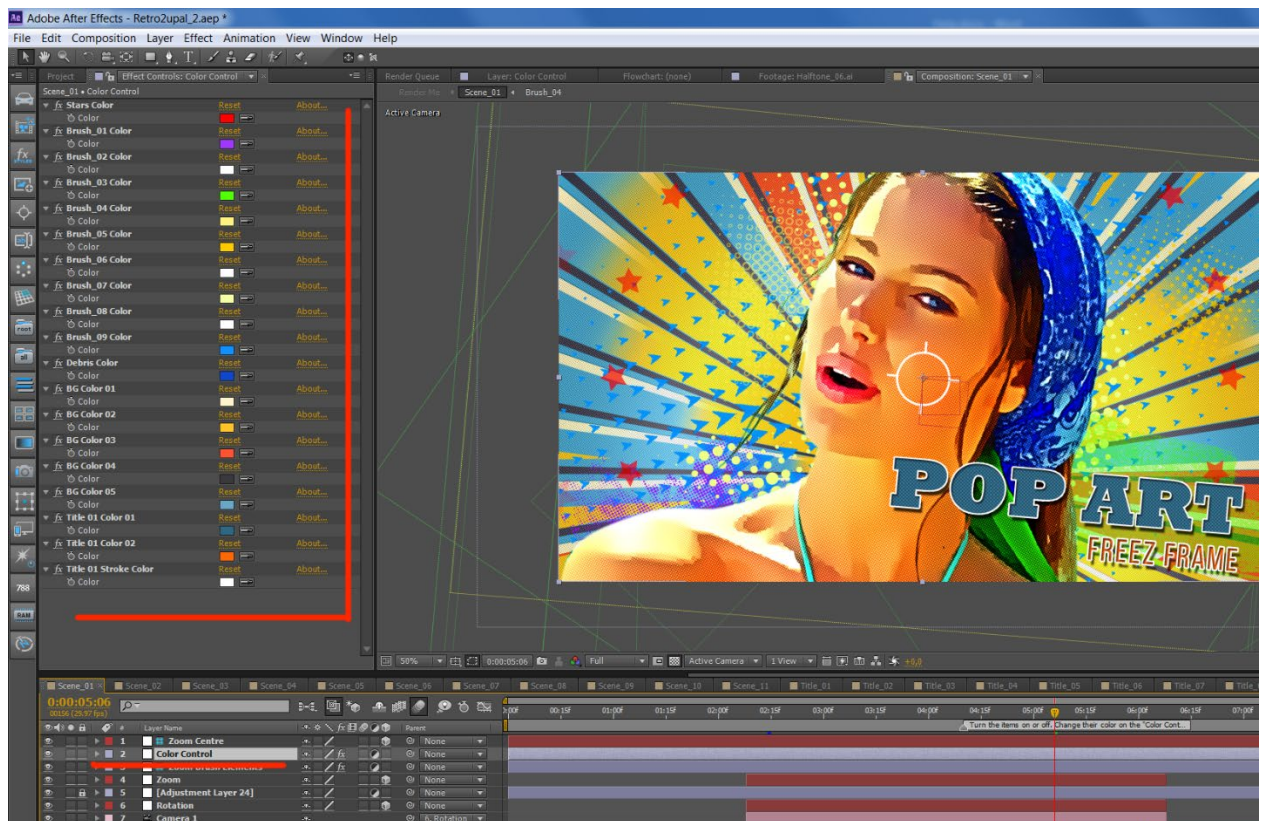

Use the "Pen Tool" to cut an object. Resolution set to "Full" and begin to trace the contour of the object.

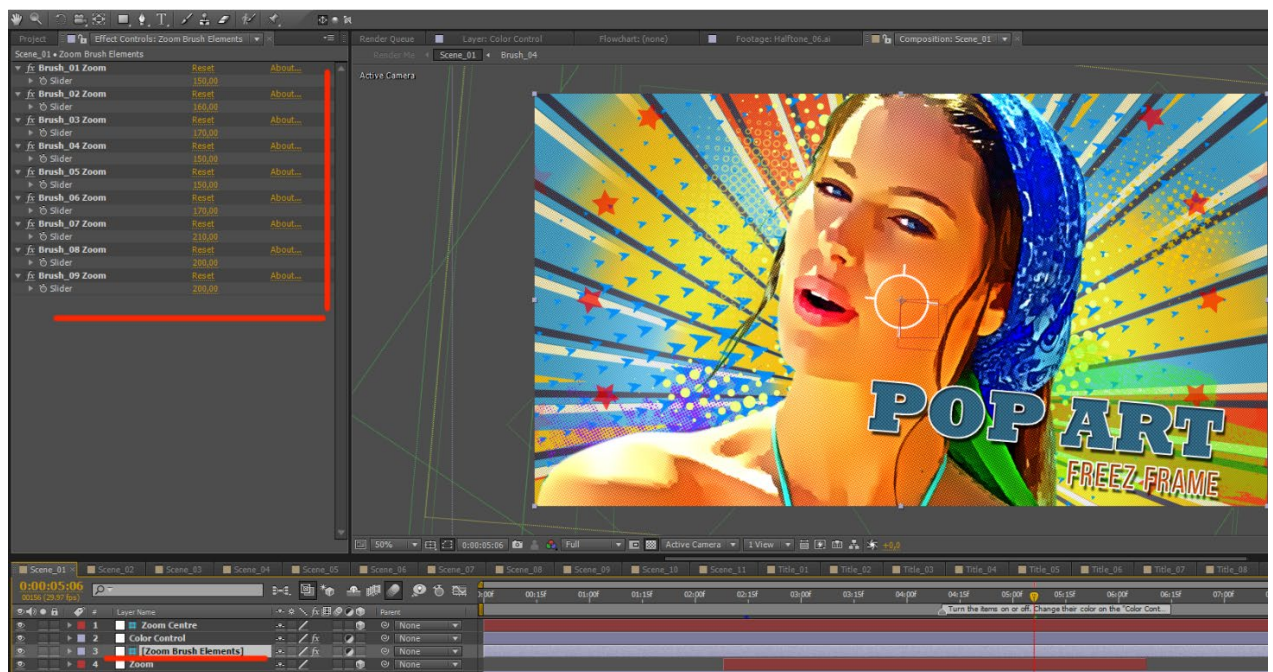

5. Open to Composition "Title 01 etc", " Intro Title ", " Outro Title" and Change Double Click

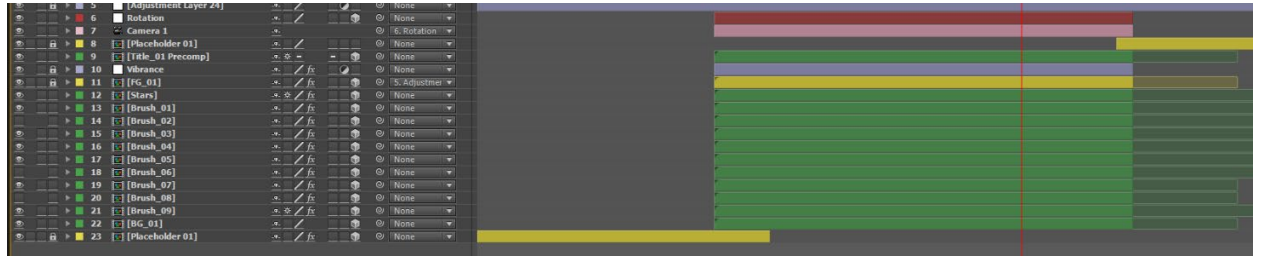

6. If you Want to Change the Color of the Elements, Open the Composition "Scene 01-11", " Intro ", " Outro ", and Changing the Color of the Elements to the Desired

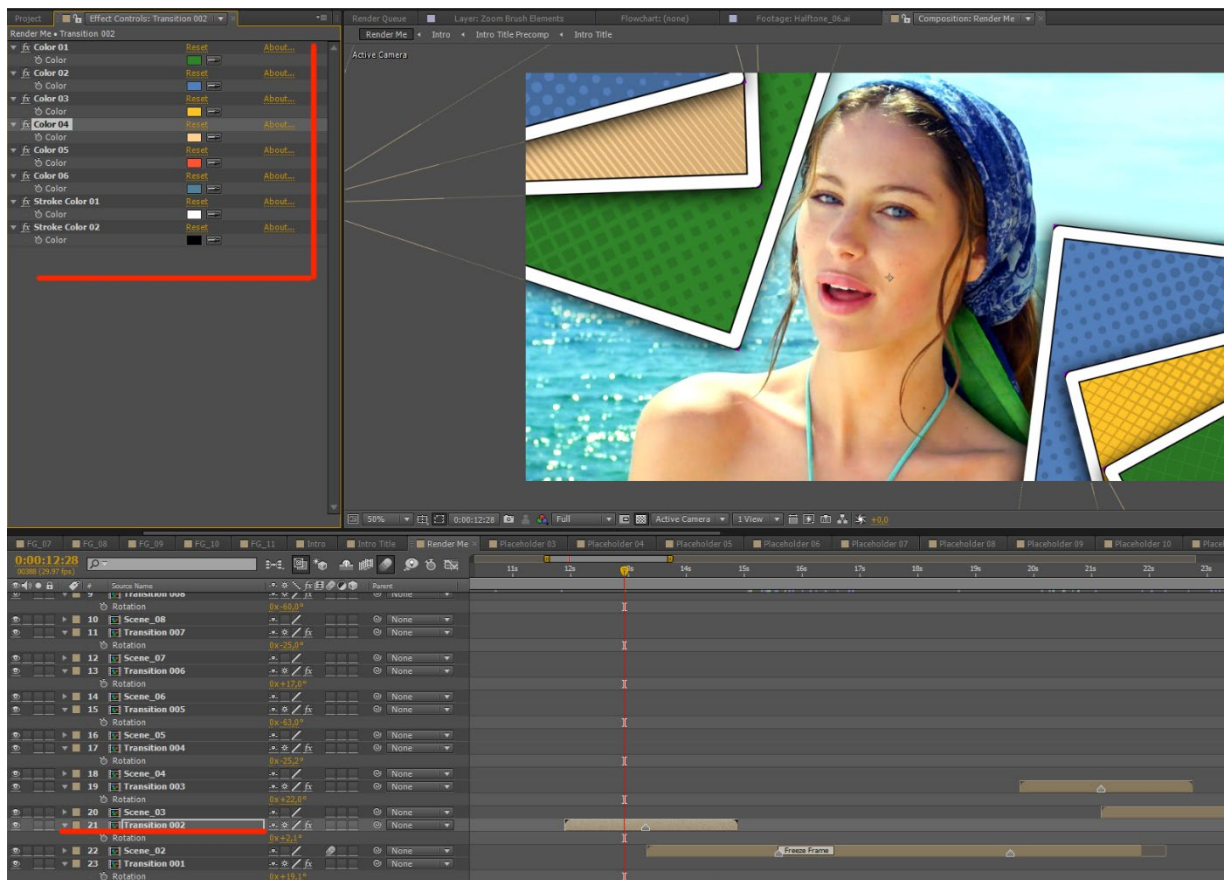

7. To change the scale of the Brush elements, select the layer "Zoom Brush Elements"

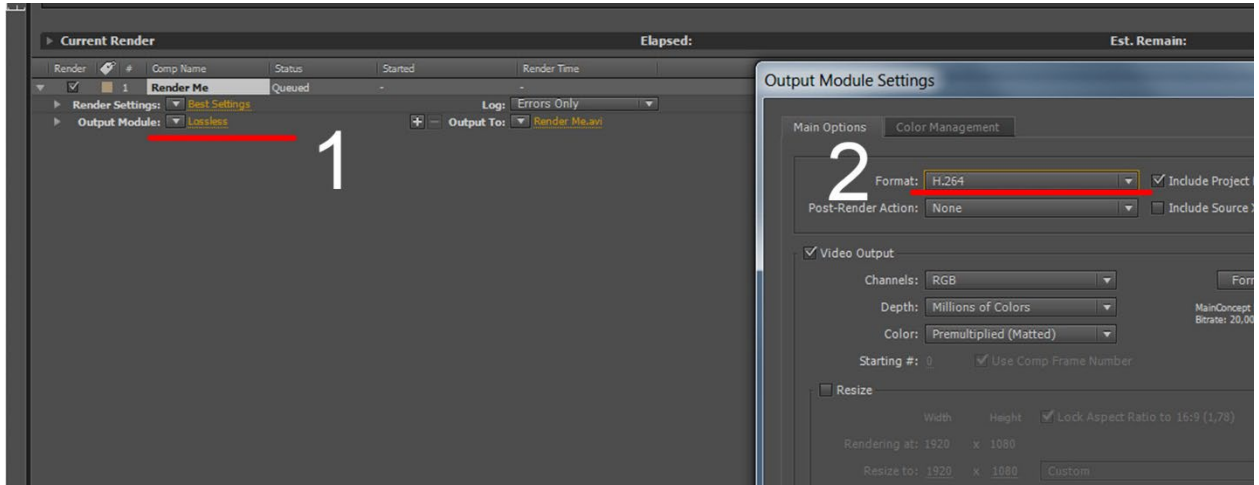

You can also change the position of the "green elements"

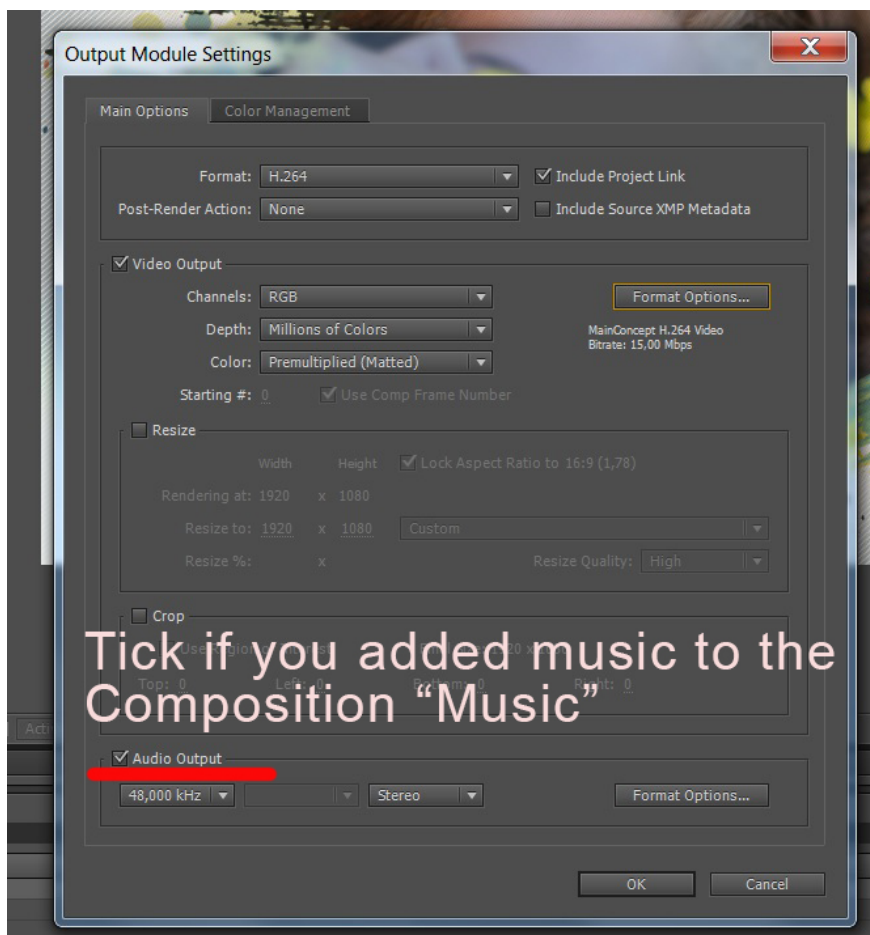

8. After all the Changes, Return to Composition “Render Me”, here you can change the color of the Transitions for the best combination with your Video. You can also change their position and rotation.

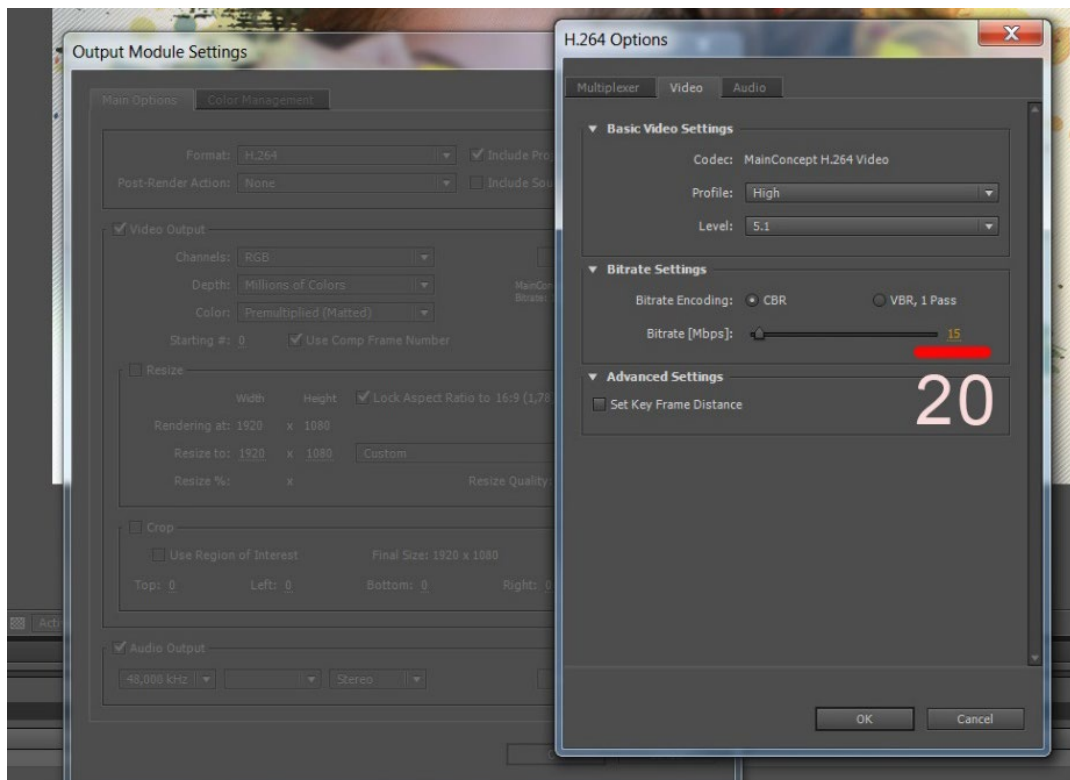

9. Press CTRL+M to render

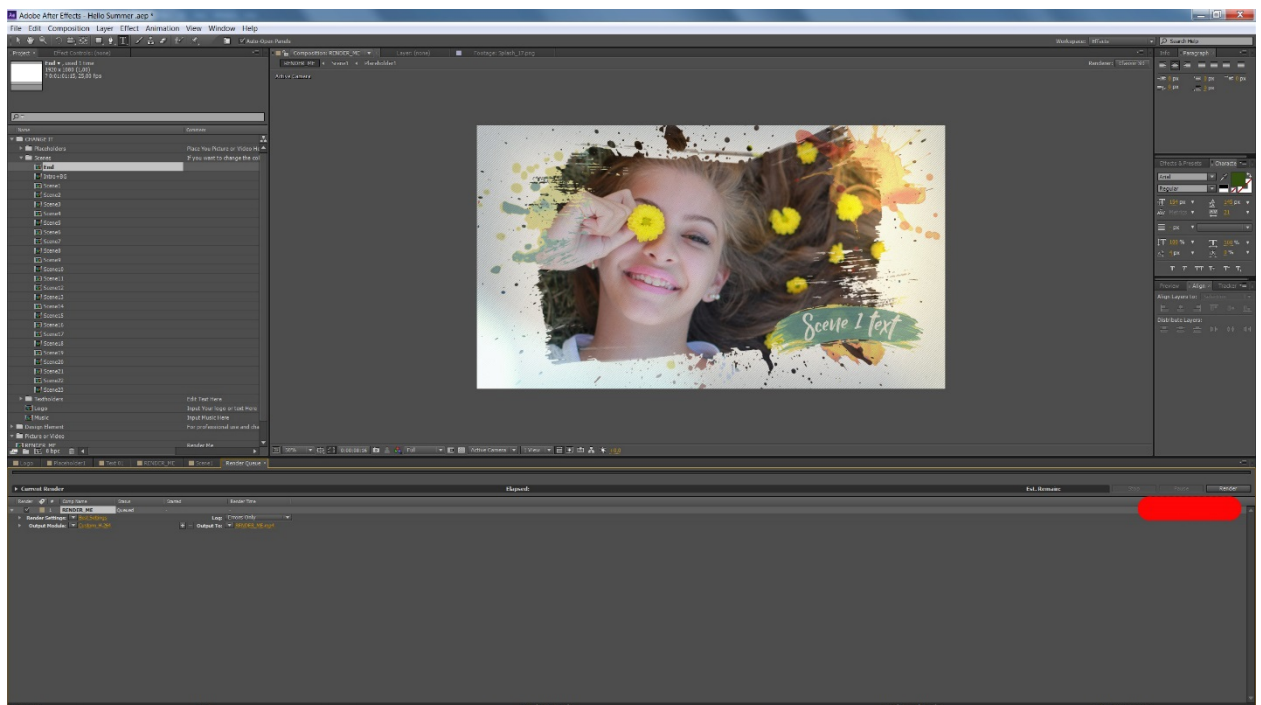

Select the output file settings

I Usually use: h264, Bitrate: 20.0 Mbps for Quality Results

Press Button Render

Nice View and Successful Work!
