

Hello and thanks for purchasing this file. All of the files are edited the same way.

This file is extremely easy to edit and you only have to change the logo and text and some color settings and you are good to go.

To change the logo, go to the following

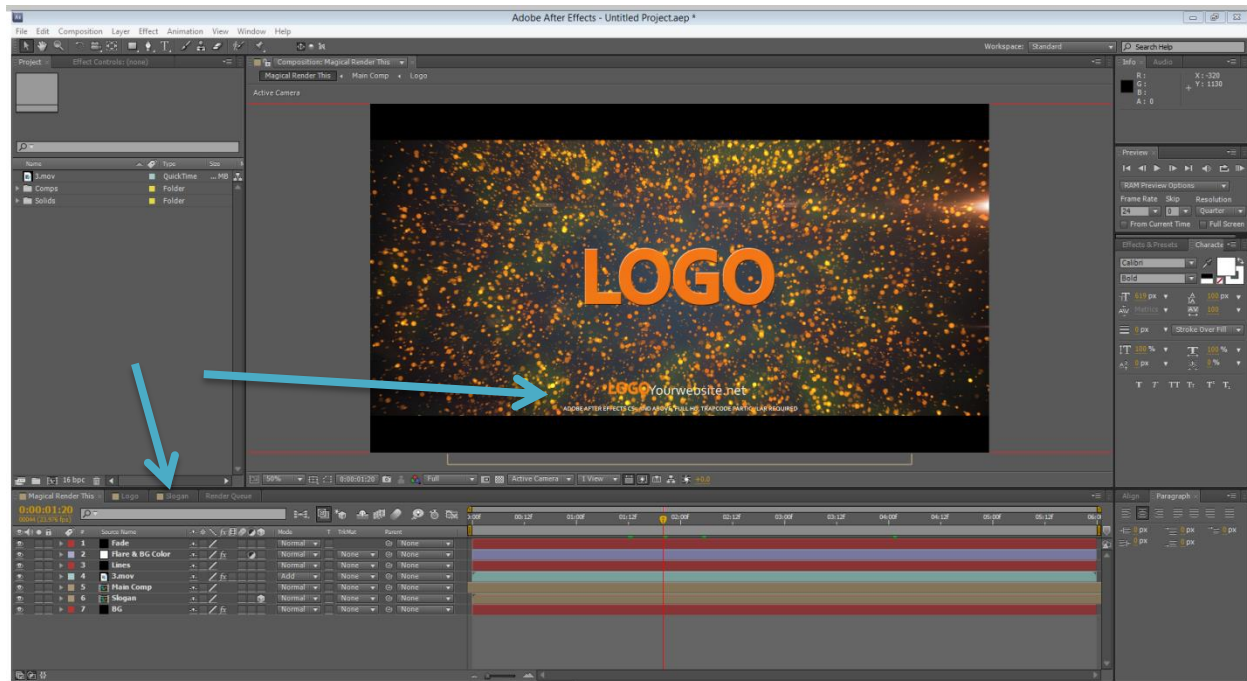

Then insert you logo here.

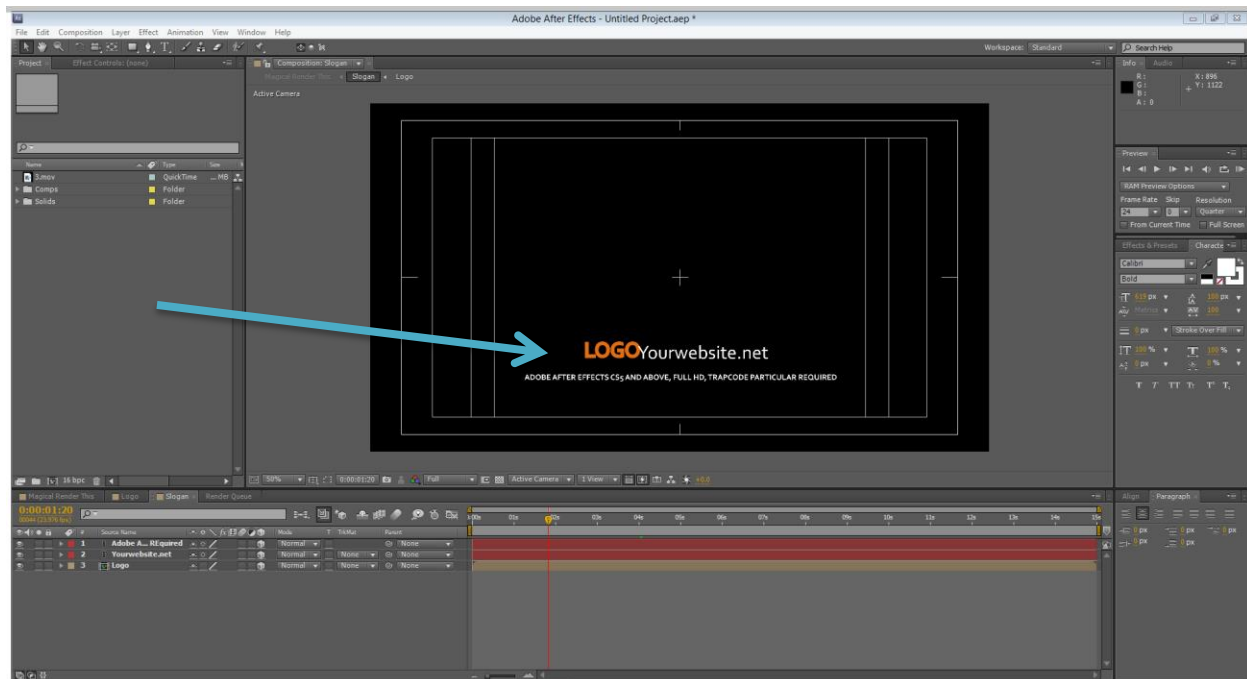

Once you have changed the logo then you only need to change the text.

To do this, go to the following

And change the text.

After this step, you are ready to render your project.

Thanks.
