

Minimalist Slideshow

Description

This slide show is designed to evoke a special feeling of warmth and nostalgia in the viewer. While watching, you are immersed in the atmosphere of a summer morning. Make a cup of your favorite tea and start the journey of sensations.

The concept of this project is a room with simple and beautiful photo frames on 3 walls. Special emphasis is placed on details and lighting. You can see the shadow falling from the tree swaying from the window and eventually moving along the wall, and the sun's glare illuminating the photo frames.

The slideshow begins at sunrise and ends at sunset.
