# EDITING LOGO OR TEXT

In this project there are 3 different version of animations as you can see from the left side image. Each of them classified as folders they are called "BLUE_VERSION", "GREEN_VERSION" and "RED_VERSION".

When you edit your logo or text this action will be applied to all scenes.
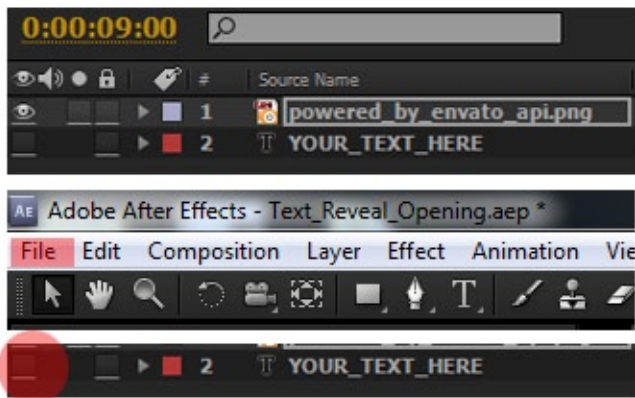

Let's edit the comp is called "YOUR LOGO".

1-) Open the comp is called "YOUR LOGO" is marked green on the left side.

2-)Double-Click the layer is called "YOUR TEXT HERE" and write there whatever you want.

3-) If you wanna insert your logo to the project import your logo with alpha squance. (File-->Import-->File and select your logo image)

4-)Click the eye icon of the text to hide it.

5-)Then drag and drop your logo into behalf text's place. That's it.

EDITING SLOGAN
