

Thanks for purchasing **TYPEX** project!

This quick reference guide contains all steps that will help you get started.
We hope you enjoy using it!

USAGE

Folder “After Effects”

Here you can find original After Effects files of Text Animation Templates.
Use it for changing fonts and export .mogrt files

Folder “Mogrt”

There is all Text Animation Templates for using in Premiere Pro

Folder “Premiere Pro”

Premiere Pro project file that contains all Titles Scenes

**You can install a Motion Graphics template (.mogrt file) from your computer into Premiere Pro.
When you install Motion Graphics templates, you copy it into Premiere Pro's Local Templates folder
so that you can use it in any Premiere Pro project.**

**To customize a template, select the template in your sequence.
Select Essential Graphics panel > Edit to change the template properties as desired.**
