

Beginning

Hi everyone and thank you for purchase my script "**Text Animator Suite**" and i hope will be useful for you.

How install?

Copy script "Text Animator Suite.jsxbin" into the following folder:

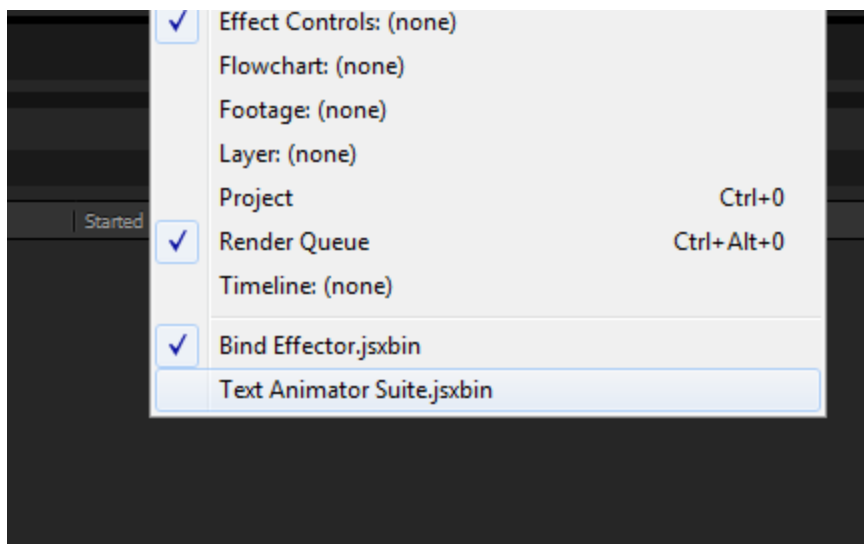

for Windows:

C:\Program Files\Adobe\Adobe After Effects CS[x]\Scripts\ScriptUI Panels

for Mac:

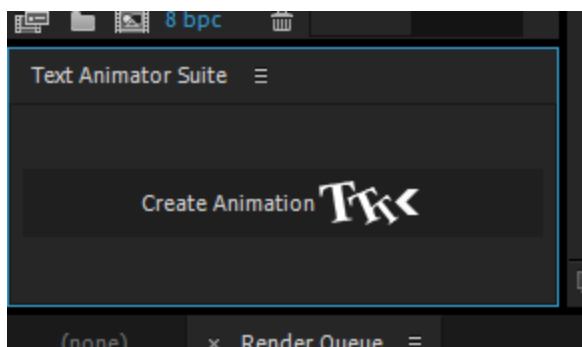

/Applications/After Effects CS[x]/Scripts/ScriptUI Panels

Open AE, select tab Window and click on "Text Animator Suite.jsxbin".

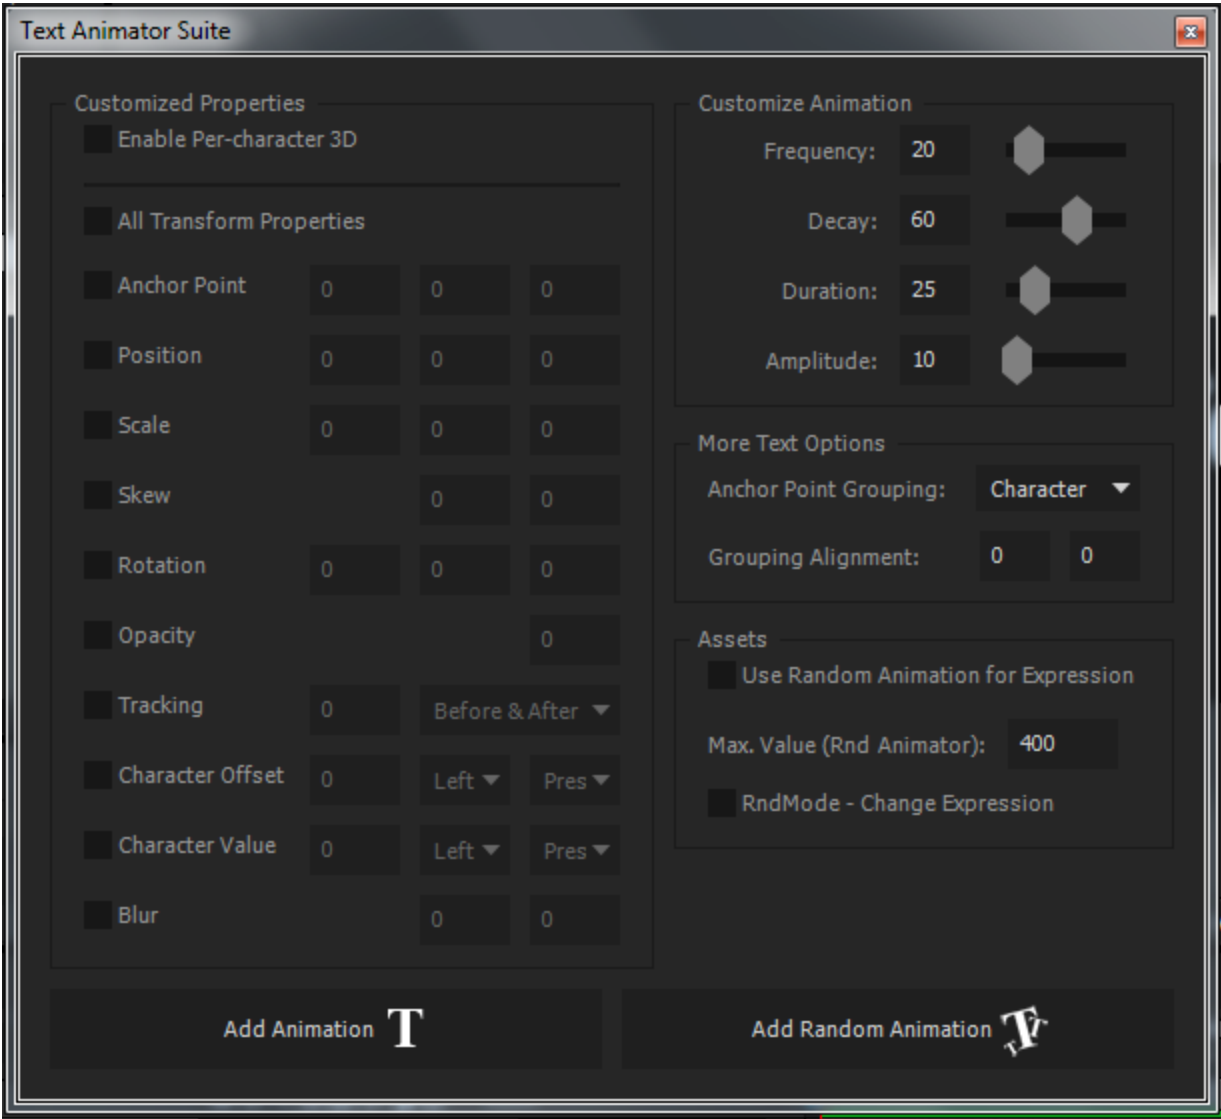

It's GUI panel with any size (autosize), you can put anywhere of AE

In AE panel:

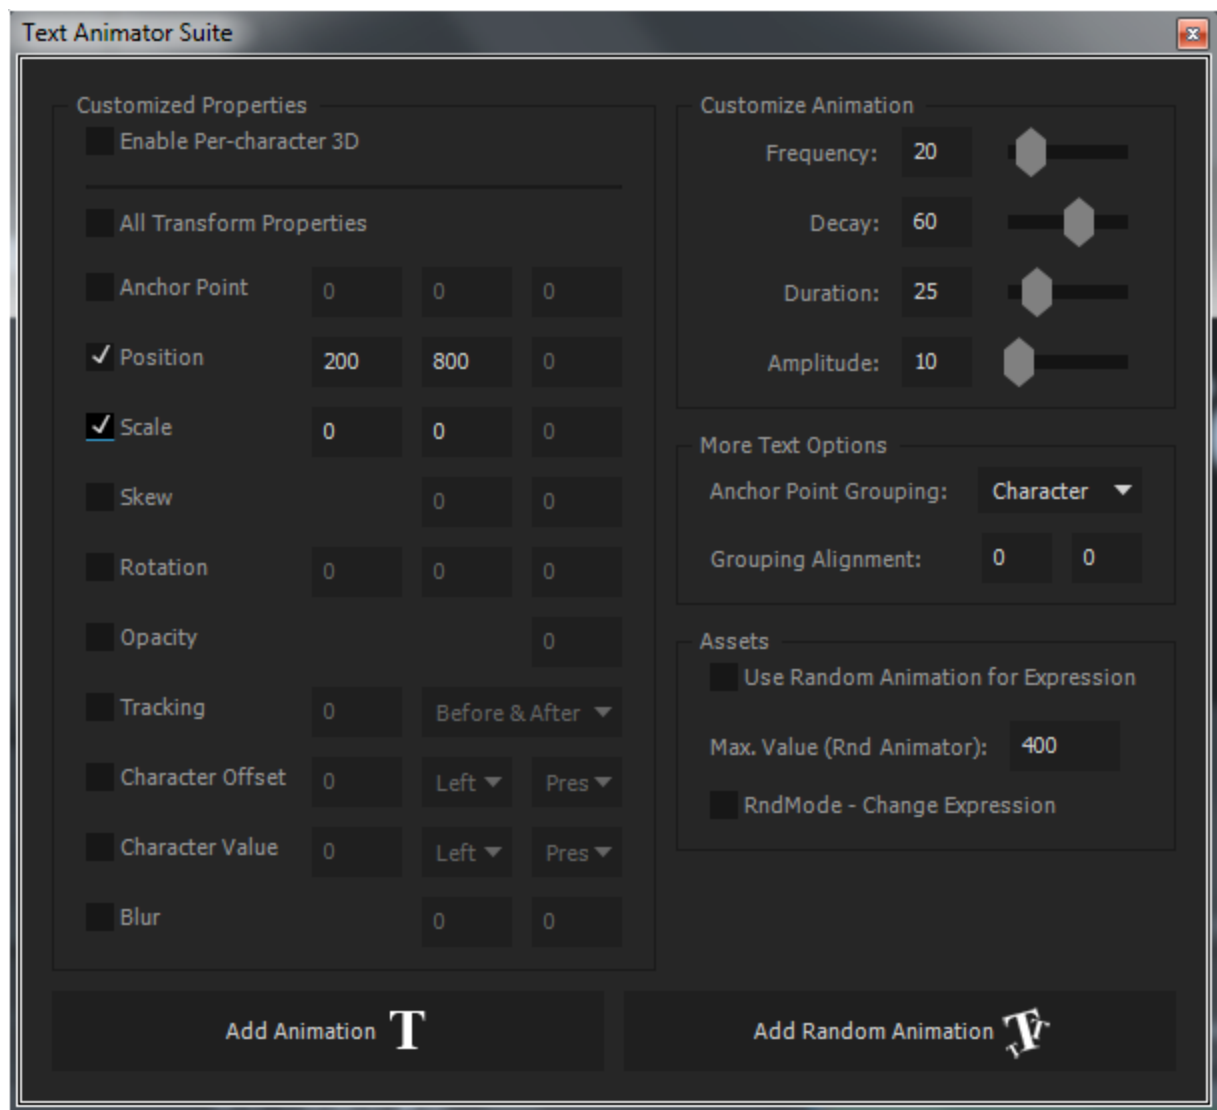

How use?

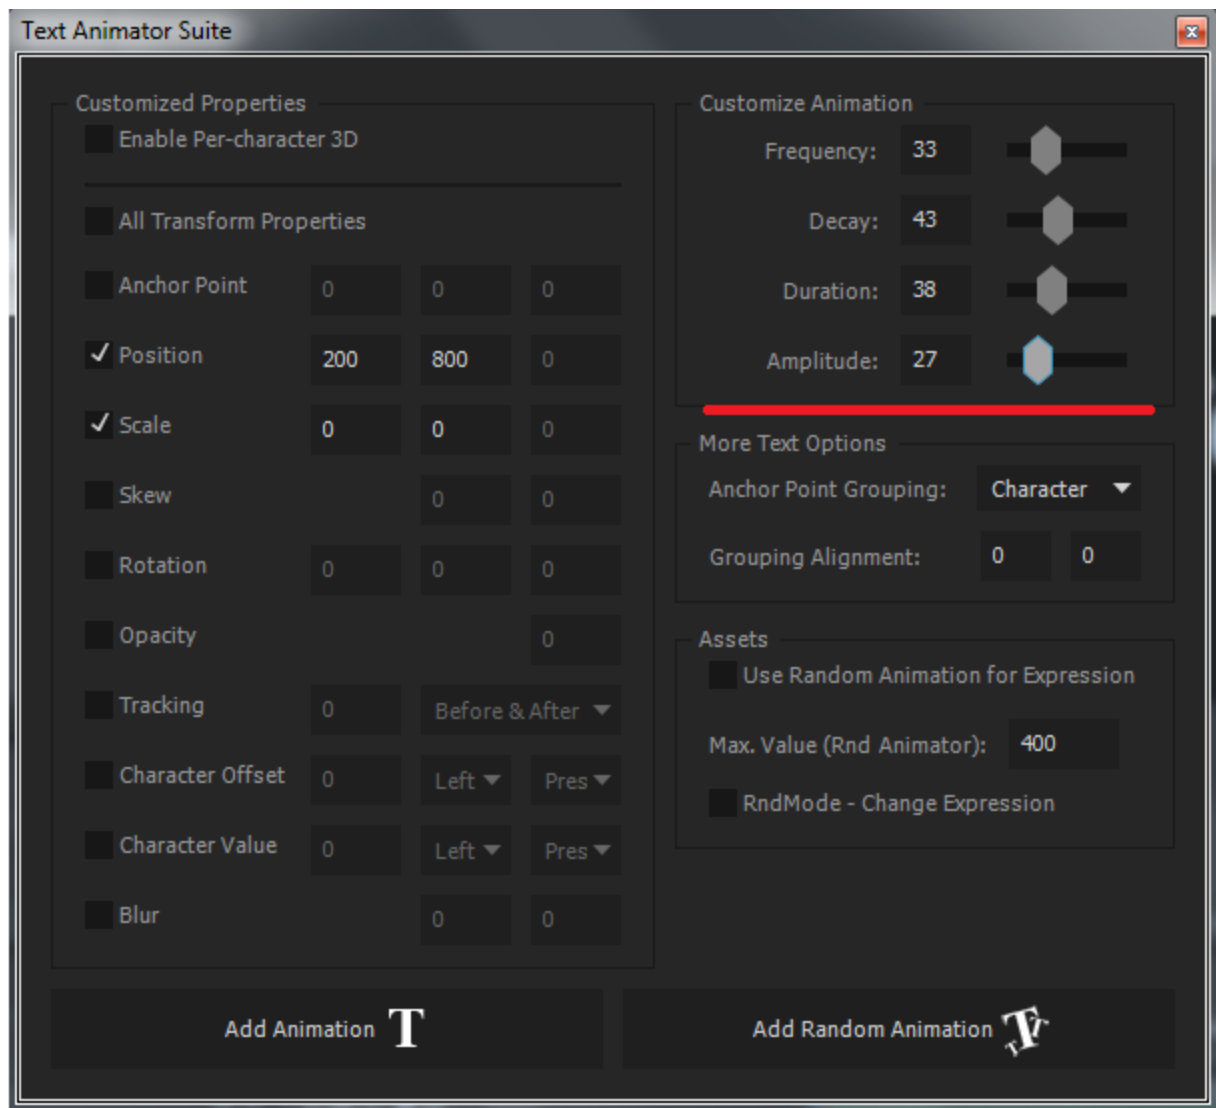

Select text layer and click on Create Animation.

Select properties and set values.

And customize animation of expression.

And click "Add Animation".

Tired coming up variety of animation? Now the script will do it for you!

Simply select the desired options and click button - "Add Random Animation", script itself will generate values for parameters!

Thanks for reading! Good luck!
