Project Futures

Color Control
Modular Structure
AE CC and Above
No Plugins required
HD,FullHD / 25 fps
Music and Photo not Included

The Free Font from here:

<https://fonts.google.com/>

Recommended Audio file can be downloaded here:

<https://elements.envato.com/the-environment-ZWW5EL6>

Open project.

Import your Photo , Video & Music.

- Open the “02 - To Edit” folder, in it there are comps for editing.
- Open the “Footage Placeholder” folder.
- Open the “Footage_PlaceHolder_02” Composition. Drag your image or video into the timeline. Make sure to scale the image or video so that the entire comp is filled. Also make sure the image or video lasts the entire length of comp. Same process to All Footage Placeholder!
- Open the “Edit Text” folder.
- Open the “Text_PlaceHolder_01” Composition and change Text.
